

Starvation in Myanmar Runs Deeper Than Empty Stomachs

The people of Myanmar are being stripped of the essentials of life

What's Really Happening in Myanmar?

Since the 2021 coup, Myanmar has spiraled into violence, economic collapse, and ruin — fueling a deeper, **multi-dimensional starvation** that threatens the nation's future.

Physical Starvation

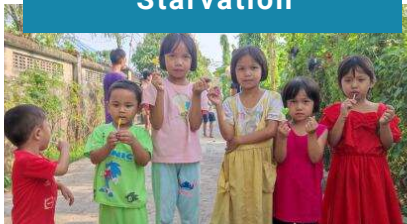

Skyrocketing food prices have made it nearly impossible for families to afford food.

3M+ jobs lost with uncertainty around future employment opportunities.

31.5M people are **urgently in need of aid.**

Mental & Educational Starvation

3M+ children are out of school due to the junta's attacks and forced school closures.

Teachers are jobless, and **children lack basic materials**, limiting effective education.

Without continued learning, there's **no path to a better future.**

Community Starvation

Entire **towns are gone.** Families now live in jungles, caves, or temporary shelters.

Clean water, healthcare, and support **systems are nearly nonexistent.**

Just as urgent: communities **lack hope**, shared purpose, or **safe spaces for healing.**

The Work Your Support Fuels

FEEDING THE HUNGRY

We **provide food directly to families** in crisis through our Blessed & Giving (BAG) Ministry — reaching rural regions often overlooked by other aid groups.

RESTORING EDUCATION

We employ **certified, out-of-work teachers** to tutor children and **restart education** programs, even in areas affected by ongoing conflict.

CARING FOR CHILDREN

We **give displaced and orphaned children a safe, nurturing environment** with our Children's Homes, offering food, trauma care, and spiritual guidance.

REBUILDING COMMUNITY

We help **restore a sense of belonging** by fostering house churches, offering education, and organizing acts of service that rebuild unity and hope.

HEALING DEEP TRAUMA

We **train local staff and volunteers to gently help people process pain** — breaking cultural silence around suffering and creating space for healing.

Your Support Helps Us:

- ✓ Deliver food, medicine, and trauma care
- ✓ Restore access to education
- ✓ Keep families together
- ✓ Share the Gospel in hostile regions

Let's End Starvation In All Its Forms
